# FULL FACE RESPIRATORS

Shalon's panoramic respirators are outstandingly effective, combining excellent protection with superior comfort. The latest in materials technology and innovative engineering has successfully industrialized a proven military design into a lightweight, ergonomically correct face-piece with a soft, comfortable, yet firm fit.

## Features

- Unique peripheral sealing lip resulting in an excellent seal that conforms to the face.
- Lightweight with effective lasting protection for extended duration wear.
- Specially formulated rubber material combining superior chemical permeation resistance and durability, with smooth soft feel. Also available with silicone face-piece.
- Comfortable integral nose-cup with controlled air flow to prevent visor fogging.
- Replaceable panoramic impact resistant lens.
- Speaking diaphragm for clear voice communication.
- Highly elasticized headharness with quick-release buckles with rollers for easy donning, simple adjustment & fast removal.
- Face-piece support for maintaining shape & fitting characteristics during extra long periods of storage.
- One size fits all.

## NIOSH Approved Respirator

Model: PAN 1 Dual cartridge negative pressure respirators.

## EN-136 Approved Respirator

Model: PAN 2 Canister type with standard 40 mm threaded connections for single filter canisters.
